Chinese	●	●	●	●	○

As someone who has always been interested in how the internet is so powerful and has positively impacted human lives, I knew Information Technology was the ideal course for me.

Since young, I have always been interested in how websites, phones, and literally anything under the umbrella of IT, worked. I have also had a soft spot for anything related to Forensic Science too, from reading forensic science journals and encyclopedias to religiously watching CSI every weekend.

I aspire to pursue a Computer Science or Computer Engineering degree, as well as a Masters in Forensic Science, at NUS after I graduate from Ngee Ann Polytechnic.

## EDUCATION
